

Depression
Bipolar Disorder
Schizophrenia
PTSD
Anxiety

Synexus offers a variety of clinical trials across the U.S. and around the world.

Right now, trials for the following mental health conditions are enrolling in your area:

- ✓ Depression
- ✓ PTSD
- ✓ Bipolar Disorder
- ✓ Anxiety
- ✓ Schizophrenia

If you're between the ages of 18-65, take action. Adults who qualify and participate may receive:

- ✓ No cost study medication and study-related care
- ✓ Compensation for time and travel

NO HEALTH INSURANCE IS NEEDED

Depression, Bipolar Disorder, Schizophrenia, Post Traumatic Stress Disorder (PTSD), and Anxiety can impact every part of your life. None of these conditions can yet be cured, and not everybody responds well to available medication.

More treatment options are needed. You could help.

With over 200 clinics around the world and 20+ years of experience, Synexus is proud to be on the front lines of medical research. It is only through clinical trials that we learn if medicines and treatments are both effective and safe.

Synexus complies with the high ethical and scientific standards established by the World Health Organization.

Together for the future of health.
